

# About

MoJoh is a 40-year old singer & songwriter & music-producer from Planet Earth.  
He has been travelling the world for the past 20 years playing concerts in almost every setting imaginable.  
His purpose on Earth is to help re-connect humanity with its home by building  
a network of like-minded people that will continue to grow.

His first love is and always has been music.  
MoJoh started my music career in a band called THE MAINSTREAM - an internet collective  
formed through myspace.com - with multiple artists from all over the world.  
He was one of the producers and also lead-singer of the band.  
Within 8 years (2004-2012) the band released three albums through their own label thestream-records  
and played over 400 shows on three different continents.  
The band eventually split up beginning of 2013 due to the amount of stress that had accumulated over time  
- the band members simply weren't prepared for it at such a young age  
which eventually made it impossible for them to continue.

Just months after the breakup of that band MoJoh was invited by Manifest ONE to visit California -  
his second home and the place where he graduated from highschool in the year 2000.  
Manifest ONE is an MC he had previously collaborated with during THE MAINSTREAM-days.  
After playing a succesful show together at THE CREST in SACRAMENTO  
the two eventually decided to start the conscious HipHop project Quest ONE  
- a group with four members that quickly caught the attention of the music industry.  
Within four years Quest ONE self-produced one EP (Stars)  
and with help of Jack Johnson's producer Robert Carranza an one album (Synergy).  
Besides playing tours through Germany Quest ONE were fortunate  
to play many shows in the US in prestigious locations  
such as Troubadour/West Hollywood + shows in Las Vegas and all over California.  
MoJoh decided to put the band on a hold in 2017 to focus on his solo-career.

Time to slow it down.

Over the course of a 3 year-span MoJoh, this time under the name LowmaX (another alter ego)  
released two self-funded, self produced albums in german  
- these albums where mainly sold while busking on the street.  
He purposely decided to play music without any of that pressure of mass marketing  
having to play what the mainstream wanted and instead,  
played shows that he was passionate about.

*'But everything comes to an end and for quite some time now I have been feeling  
the desire to sing and text in english again - also to get back to touring internationally.  
I love travelling to to other countries.*

*Besides, all my new songs are in english - something I can't really explain - it's the way things are.  
English is the universal way to spread love, right?*

*And so I decided to start working new songs - as soon as the decision was made, songs started to pour out of me.  
In fact, so many - instead of one album I decided to work on three albums:*

## **THE HOME-TRILOGY.**

*The first album called 'GOING HOME' is already finished and released  
(available exclusively through this website).*

*The follow-up will be called 'COMING HOME'.*

*My plan for the third and final album 'HOME' is to record it in various locations all over this wonderful planet.*

*'In times like these where the attention span of the people is rather limited and everybody from the industry tells me to focus on singles only and not waste  
my time producing an album, this might seem like a crazy idea, but I still love the old-fashioned concept of an album - that's what I grew up with and I still  
remember the days when I spent all my money in a local record store and actually took the time  
to listen to a record until I started liking it!'*

The first record '**GOING HOME**' is already available through this website.

After you're finished reading this text you should check it out!

The majority of the album is 'homemade' and recorded -

MoJoh didn't go into any big studio for that but instead used whatever was available to record music -  
and sometimes that meant to record in the basement of his drummer's house or at a friend's place.

Most of the time he recorded at his apartment.

Due to the current state of the world,  
MoJoh has also started a project called '**LOVE IS RISING**' by MoJoh & friends -  
a collection of singles & musicvideos all dedicated to the cause again collaborating with different artist from all over the world.  
Starting in March-2023 a new song + musicvideo will be released every Month!

***'I hope my music will touch, move and inspire many in a world that needs honesty & authenticity to resonate with.'***
